UPDATED PUBLIC NOTICE OF CONSTRUCTION

PROJECT ENTERS ANNUAL ENVIRONMENTALLY SENSITIVE PERIOD JAN-MAY

Aerial View of Pier CIDH Piling Foundation Construction

The Ridgway Rail Bird Surveys started on January 16, 2019, marking the start of an approximate four-month long “environmentally-sensitive” period when construction work is limited to accommodate the nesting season of the endangered California Ridgway Rail.

CONSTRUCTION UPDATE: FEBRUARY 2019

Construction of all foundation piling for the north side of the bridge was completed earlier this month and the contractor is currently removing drilling equipment and performing site cleanup. Construction will continue on Abutments 1 and 6 through mid-February, followed by construction of the Pump Station fabrication of precast girders and Magnolia/Bon Air Intersection, expected to be completed in May.

Next Steps: Check the project website at www.bonairbridge.com for regular updates on construction activities and project milestones.
