PUBLIC NOTICE OF CONSTRUCTION

PROJECT GRANTED VARIANCE FOR ENVIRONMENTALLY SENSITIVE PERIOD

Aerial View of Pier CIDH Piling Foundation Construction

The Ridgway Rail Bird Surveys that started in mid-January marked the start of an “environmentally-sensitive” period when construction work had previously been limited to accommodate the nesting season of the endangered California Ridgway Rail. The City was granted a variance by the regulatory agencies based on recent biological surveys which revealed there was no active bird nesting or citing within 700 feet of the project. Construction will resume on the North side of the bridge and continue through the end of the year

CONSTRUCTION UPDATE: APRIL 2019

Construction activities will include concrete pier construction; precast concrete wide flanged girder erection; concrete bridge deck construction and roadway approach construction. Work will also continue at the intersections of Bon Air and Magnolia and S. Eliseo, to upgrade signals and lighting, and perform sidewalk reconstruction and drainage improvements. We appreciate your patience and cooperation as we continue to make these important improvements.

Next Steps: Check the project website at www.bonairbridge.com for updates on construction activities and project milestones.
