PUBLIC NOTICE OF CONSTRUCTION

NOVEMBER 2019 – JANUARY 2020: BRIDGE CONSTRUCTION CONTINUES

AERIAL VIEWS OF STAGE 1 BRIDGE DECK CONSTRUCTION

CONSTRUCTION UPDATE:

Good news! We are pleased to announce the successful completion of the Stage 1 bridge deck, a major project milestone! Now, with Stage 1 bridge structural elements completed, the work will shift to project safety features to construct the new pedestrian railings, concrete pedestals and barriers, street lighting, drainage systems and traffic signals. The upcoming work will also focus on utility relocations, removing the northside temporary trestle/work platform and completing the roadway approaches to detour traffic and pedestrians from the old bridge onto the new Stage 1 bridge.

Construction work continues on the Stage 1 (northside) Bon Air bridge and roadway approaches and we anticipate periodic one-way traffic control during this work. Pending any delays due to weather, we expect to open the Stage 1 bridge the first week in January 2020.

Future construction updates in December will announce the traffic switch date and time.

We appreciate your patience and cooperation as we continue to make these important improvements.

**Please note that all dates are estimated and subject to change.*

Next Steps: Check the project website at www.bonairbridge.com for updates on construction activities and project milestones.
