PUBLIC NOTICE OF CONSTRUCTION

MARCH – MAY 2020: STAGE 2 WORK UNDERWAY

Demolition and Removal of Bridge Sidewalk and Railing

The Bon Air Bridge Project is pleased to announce that Stage 2 bridge work is once again underway, following the recent completion of utility relocation work by Comcast. Beginning in mid-March and continuing through May, our bridge contractor will be focused on removing the old bridge deck, railing and steel girders.

Special precautionary measures are in place for concrete debris containment and handling to protect Corte Madera Creek at all times. We understand that concrete demolition is loud, and the City's noise and work hours ordinances will be enforced during construction.

Please use caution when traveling through the work area and expect periodic lane closures to allow construction equipment to safely enter and exit the work zone. We appreciate your patience and cooperation as we continue to make these important improvements.

**Please note that all dates are estimated and subject to change.*

Please visit the project website at www.bonairbridge.com for more information on construction activities and project milestones.
