PUBLIC NOTICE OF CONSTRUCTION

DECEMBER 2020 – FEBRUARY 2021: COMPLETION OF STAGE 2 FOUNDATION WORK

Aerial Views of Bon Air Bridge Stage 2 Construction and Project Progress

The Bon Air Bridge Project is pleased to announce that Golden State Bridge (Prime Contractor) is on schedule to complete the Stage 2 (south) bridge foundation piling in January 2021. Next, Golden State Bridge will be focused on constructing the bridge's concrete pier columns, abutments, and bent caps. Our goal remains to meet the project milestones necessary for setting the precast concrete bridge girders by July of 2021. In order to place the bridge girders, Bon Air Bridge will need to be closed for one week, similar to the bridge closure activities that happened during Stage 1, in the summer of 2019. Further information, regarding the upcoming full bridge closure and detour routes will be issued in May 2021.

To protect Corte Madera Creek, special precautionary measures are in place for containment and handling of construction debris at all times. We understand that construction activities are loud and the City's noise and work hours ordinances will be enforced. Additionally, please use caution when traveling through the work area and expect periodic lane closures to allow construction equipment to safely enter and exit the work zone.

We appreciate your patience and cooperation as we continue to make these important improvements.

**Please note that all dates are estimated and subject to change.*

Thank you for visiting the project website at www.bonairbridge.com for updates on construction activities and project milestones.
