**PUBLIC NOTICE OF CONSTRUCTION**

**Stage 2 Bridge Construction Awaiting Precast Concrete Girder Placement**

The Bon Air Bridge Project Stage 2 bridge work will resume early in June. Currently, the bridge work is on hold due to in-water environmental permit and wildlife protective measures. During this temporary in-water work shutdown phase, intermittent roadway and civil engineering underground work will continue on the east side of the bridge, to upgrade signals and lighting, and perform sidewalk reconstruction and drainage improvements at the intersection of Bon Air and South Eliseo. Please use caution when traveling through the work area and expect periodic lane closures to allow construction equipment to safely enter and exit the work zone.

Looking ahead, the City will issue a special construction notice for the upcoming 1-week bridge closure expected to start on July 11, 2021. The purpose of the full bridge closure is to install large precast concrete bridge girders. The Bridge will remain open to pedestrians and cyclists.

We appreciate your patience and cooperation as we continue to make these important improvements.
