PUBLIC NOTICE OF CONSTRUCTION

Stage 2 Bridge Deck Form and Deck Rebar Installation

Construction work continues on the Stage 2 bridge to construct the new concrete bridge deck and barrier rail supported by the recently installed concrete girders. These activities are scheduled through the end of November.

The City and Contractor have finalized plans for the third planned bridge closure, which is now scheduled for the weekend of October 30th and 31st. The entire bridge will be closed to all vehicle traffic starting Saturday, October 30th at 5:00 a.m. and will reopen on Sunday, October 31st at 5:00 p.m. Pedestrians and bicyclists will be able to use the northside of the bridge during this temporary closure. Please note that this work is weather dependent. The anticipated bridge completion date remains Summer of 2022.

Roadwork improvements will continue on Bon Air Road and will focus on completing the intersection of Bon Air and South Eliseo and roadway approaches to the bridge. We anticipate periodic one-way traffic control during this work. We appreciate your patience and cooperation as we continue to make these important improvements.
