PUBLIC NOTICE OF CONSTRUCTION

Aerial Views of Current Stage 2 Construction

Construction work continues on the Stage 2 (South) bridge to construct the new concrete sidewalk, barrier rail, bridge lighting and pedestrian railings. These activities are scheduled through late January 2022.

Coming up we expect to shift traffic and pedestrians onto the new bridge (south) side in late January 2022, and begin constructing the north side bridge sidewalk, barrier railings and roadway approaches.

Roadwork improvements will continue on Bon Air Road with the focus on completing South Eliseo's curb ramps, signals, and lighting. Pedestrians and bicyclists will continue to use the northside of the bridge during these next phases of roadwork with minor pedestrian detours on South Eliseo.

Please note that this work is weather dependent, and the anticipated bridge completion date remains Summer of 2022. We appreciate your patience and cooperation as we continue to make these important improvements.
