**PUBLIC NOTICE OF CONSTRUCTION**

**Aerial Construction Views:  
Completion of Stage 2 (southside) and Preparation for Stage 3 (northside)**

Good news! We are pleased to announce the successful completion of Stage 2, bridge and new Bon Air roadway approaches, which is another major project milestone. With the recent completion of Stage 2, the Contractor will be able to shift traffic to the southside of the newly constructed bridge on February 15, 2022.

During this next stage (Stage 3), the focus of the work will be on completing the bridge (northside) sidewalk, Bon Air median/landscaping between Magnolia and the Mid-Block crossing and Bon Air eastside pathway with pedestrian railing from Route 20 to Bayview.

Please note that pedestrians will also be detoured during this next phase of work onto the new bridge southside sidewalk using the Bon Air crossings at S. Eliseo Drive and Magnolia Avenue. As always, please use caution when traveling through the work areas and expect periodic lane closures to allow construction equipment to safely enter and exit the work zone.

Our anticipated bridge completion date remains Summer of 2022, weather dependent, and we greatly appreciate your patience and cooperation as we continue to make these important improvements.
